

Data Recovery Software

Runtime Software's data recovery software will help you rescue your lost or inaccessible files from any imaginable data recovery disaster.

Download Now!

Download GetDataBack and start your data recovery process now!

[1](#)[2](#)[3](#)

GetDataBack

Do-it-yourself Data Recovery Software. GetDataBack is more than an undelete or file recovery program or a system restore.

[Free Download](#) ➡

RAID Reconstructor

Recover data from a broken RAID Level 5 or 0 Array. RAID Reconstructor is not only a "destriper" but an "analyzer" as well.

[Free Download](#) ➡

DrivelImage XML

Backup and image logical drives and partitions, create hot images, copy one drive to another, schedule automatic backups.

What's New?

New version: RAID Reconstructor Version 4.03 released

Data Recovery from RAID 0 and RAID 5. The new version has an improved analysis engine, helping you to identify the unknown RAID structure and recover your data. V4.03 is faster than ever.

A warning about formatting your drive in Vista and Windows 7

July 14th, 2010

We just want to warn people about formatting their drives in Windows Vista and Windows 7. If you uncheck the option for quick format, the operating system does a full destructive format, making data recovery impossible once it is finished.
